Follow the steps below to sell coins:

1. Choose Transfer to sell coins.
2. Select the recipient type:
 - If you choose a User, the coins will be added to the user's coin account.
 - If you choose a Coin Seller, the coins will be added to the coin seller's offline coin account.
3. Enter the ID to which you want to sell coins.
4. Click "Check" to confirm the ID.
5. Enter the amount of coins you want to sell.
6. Click "Transfer" to complete the process.

The screenshot shows the 'Coins_Seller' app interface. At the top, there are tabs for 'Myself' and 'Trading', with 'Trading' selected. A yellow warning banner states: 'Attention: Coin sellers with no sales for 15 consecutive days will be downgraded to Beginner Coin Seller.' Below this is a 'My Balance' section showing 'Available balance' and 'Total Balance' both at '\$10,000', with a 'Security Deposit' of '\$0'. The 'Current level' is 'Beginner Seller'. The 'Transfer' option is selected under the 'Sales method' section, with a note: 'After closing your Coin Seller account, you can transfer Offline Coins only to your own Coins account.' The 'Sales method' is set to 'User' (indicated by a green checkmark). The 'User ID' field is empty, with a red circle 3 indicating where to input the ID. A red circle 4 is next to the 'Check' button. The 'Amount' field is empty, with a red circle 5 indicating where to enter the amount. A red error message says 'Please enter a multiple of 1'. Below this, it says 'Will receive coins, 1'. At the bottom, a large green button with a red circle 6 is labeled 'Transfer'.
