## • Income Structure

**Gift Income** = 70% of the gift costs

(Example: The host received a 10,000 coins gift, the host will get  $10,000 \times 70\% = 7,000$  beans)

**Video / Voice Call** = 300 - 1,200 beans per minute

**Message** = 10 - 200 beans per message

**The withdrawal amount will arrive in the account within 24 hours.**

The application has different payment methods; choose your preferred one for withdrawals. There might be a minor service charge applicable to each method.

## • Coins Recharge

**iOS & Google Play Store**

5000 ~ 7000 coins = 1 USD

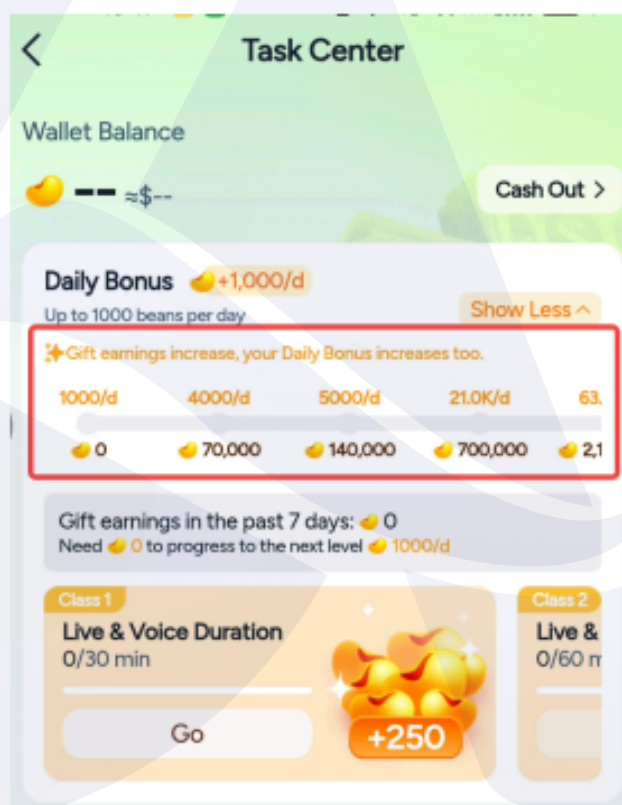

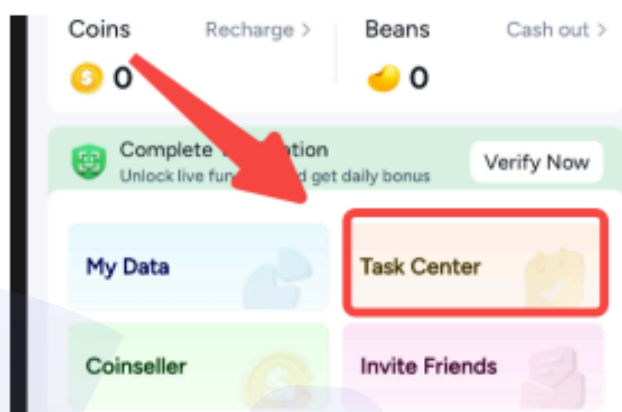

**Offline coin recharge** is much cheaper.

Ask the coin seller or admin for more details.
